Joan Guerrero Sanchez

Backend Developer · Node.js / Python · APIs and production systems

Zaragoza, Spain · jo-an-gs@hotmail.com · linkedin.com/in/jg-chez · github.com/GnChez · gnchez.github.io

PROFESSIONAL PROFILE

Backend developer with hands-on experience in Node.js (Express, REST APIs, JWT) and Python (FastAPI). I currently work on the server runtime: multi-process architecture, authenticated APIs, job scheduling, health monitoring, and automated tests. Background in AI and Big Data; looking for a backend role in production systems and APIs.

TECHNICAL SKILLS

Backend: Node.js (Express, ES modules), Python (FastAPI), REST APIs, JWT/sessions, multi-process IPC, WebSockets, Jest + Supertest

Infrastructure: Docker, Linux, Nginx (reverse proxy), Git/GitHub, monitoring and alerts, Scrum

Data: PostgreSQL, MySQL, MongoDB, SQL

Frontend: React, JavaScript (ES6+), TypeScript, HTML5, CSS3/Sass, React Native

AI (adjacent): RAG, FAISS, PyTorch, Hugging Face Transformers

WORK EXPERIENCE

Backend Developer | *Myllox* · February 2026 – Present

- Server runtime in Node.js: multi-process architecture with a supervisor and specialized services, IPC, and an HTTPS admin API.
- JWT/session auth, Nginx reverse proxy, job scheduling, and service health monitoring with alerts.
- Visual workflow editor and the data contract between the UI and the runtime, so exported definitions run in production.
- Shared JavaScript libraries for server and browser; API tests with Jest and Supertest (unit and e2e).

L1 Logistics Associate | *Amazon* · May 2025 – January 2026

- Logistics operations under strict performance and quality targets, alongside technical training.

Frontend Developer (Internship) | *Myllox* · March 2024 – June 2024

- Mobile adaptation of the web platform with React Native. Hired back as a backend developer after the internship.

SELECTED PROJECTS

Pirates of Andromeda | *FastAPI · React · WebSockets · MQTT · Kotlin* · github.com/GnChez/PiratesdAndromeda

- Production FastAPI backend for a real-time multiplayer experience (Android app and web dashboard).
- WebSocket and MQTT channels for live state; IoT integration with ESP32.

Local RAG assistant | *Python · FAISS · Gradio* · github.com/GnChez/RAG-Document-Assistant

- Private PDF Q&A pipeline (ingestion, embeddings, vector search) with local GPU/CPU inference.

EDUCATION

Advanced Vocational Training in Web Application Development (DAW) — Institut TIC de Barcelona · 2025 – 2026

Specialization in Artificial Intelligence and Big Data — Institut TIC de Barcelona · 2024 – 2025

Advanced Vocational Training in Multiplatform Application Development (DAM) — Instituto Pedralbes · 2022 – 2024

Languages: Spanish (native) · English (advanced, B2/C1) · German (basic, A2)
