Joan Guerrero Sanchez

Junior AI / ML Engineer · RAG, NLP, and reinforcement learning

Zaragoza, Spain · jo-an-gs@hotmail.com · linkedin.com/in/jg-chez · github.com/GnChez · gnchez.github.io

PROFESSIONAL PROFILE

Developer specializing in Artificial Intelligence and Big Data. I have built a local RAG system (Llama-3 / Phi-3, FAISS), fine-tuned BERT, and trained a PPO agent in VizDoom. I also ship production backend software (Node.js, APIs, server runtime), which I use to turn models into real services. Looking for a junior AI/ML Engineer role or a backend role with applied AI.

TECHNICAL SKILLS

AI & ML: PyTorch, Hugging Face Transformers, RAG (chunking, embeddings, FAISS), Sentence-Transformers, LLM quantization, PPO / Stable Baselines 3, OpenCV

Languages: Python, JavaScript (ES6+), SQL, Bash

Serving & product: Gradio, FastAPI, Node.js (Express), Docker, Git/GitHub

Data: Pandas, NumPy, PostgreSQL, MySQL, MongoDB

WORK EXPERIENCE

Backend Developer | *Myllox* · February 2026 – Present

- Production Node.js software: authenticated APIs, multi-process runtime, job scheduling, and monitoring — the engineering layer needed to put models and data services into a product.
- Automated tests (Jest, Supertest) and shared server/browser libraries.

L1 Logistics Associate | *Amazon* · May 2025 – January 2026

- Logistics operations alongside a specialization course in AI and Big Data.

Frontend Developer (Internship) | *Myllox* · March 2024 – June 2024

- React Native mobile app. Hired back as a backend developer after the internship.

AI PROJECTS

Local RAG document assistant | *Python · Llama-3-8B · Phi-3 · FAISS · Gradio* · github.com/GnChez/RAG-Document-Assistant

- Private PDF chat with no cloud calls: ingestion, chunking, MiniLM embeddings, and a local FAISS index.
- Adaptive inference: 4-bit Llama-3-8B on NVIDIA GPU, or Phi-3 Mini on CPU.

BERT sentiment classifier | *PyTorch · Transformers · IMDB* · github.com/GnChez/BERT-Sentiment-Analysis-Fine-Tuning-for-Movie-Reviews

- Fine-tuned bert-base-uncased on IMDB movie reviews, with a custom classification head on the base model.

Doom autonomous agent | *PyTorch · Stable Baselines 3 · PPO · VizDoom* · github.com/GnChez/DOOM-Reinforcement-Learning-Agent

- PPO agent with curriculum learning and per-scenario rewards; stacked-frame vision.

Pirates of Andromeda | *FastAPI · WebSockets* · github.com/GnChez/PiratesdAndromeda

- Production FastAPI backend (real time). A natural fit for serving models behind an API.

EDUCATION

Specialization in Artificial Intelligence and Big Data — Institut TIC de Barcelona · 2024 – 2025

Advanced Vocational Training in Web Application Development (DAW) — Institut TIC de Barcelona · 2025 – 2026

Advanced Vocational Training in Multiplatform Application Development (DAM) — Instituto Pedralbes · 2022 – 2024

Languages: Spanish (native) · English (advanced, B2/C1) · German (basic, A2)
